FONESTAR

FO-469-TX

HDMI STREAMING OVER IP TRANSMITTER

DESCRIPTION

HDMI 1.3 Matrix Transmitter over IP

Low bandwidth transmission technology.
1080p@60Hz compatible.
Allows selection of inputs and outputs via smartphone or tablet APP, PC software and/or remote control. The user can configure the system using their smartphone, tablet or PC.
Configuration as matrix or direct connection.

Features:
- Extends HDMI signal over local network or direct cable.
- Transmission distance up to 120 m for 1080p@60Hz signal.
- Point-to-point and point-to-multipoint connection.
- IR remote control signal to control sources from the receiver location.
- HDMI 1.3 and HDCP 1.3 compliant.
- Remote control extension function for source control from the receiver location.

For professional audiovisual installations where great versatility and easy handling of video and audio signals are required such as: airports, museums, shopping malls, stadiums, entertainment centers, etc.
