DESCRIPTION

USB mixer for PC

Create your own mini home-studio for audio recording/streaming (podcasts, music performances, etc.) with this simple 3-channel mixer with integrated audio card.

It features several mic/line inputs with the standard connectors on the market (XLR, 6.3 mm jack, 3.5 mm jack and RCA).

PC-compatible, you can use your favourite recording or audio streaming software.

With phantom power, independent controls for tone, gain, balance and volume.

In addition, you can monitor, amplify or record in real time, thanks to the monitor, main and record outputs.

A very complete mixer in a small size, versatile and adaptable to a multitude of uses, as you can also use it without a PC, thanks to its power adapter.

For audio recording/streaming, musical performances or live talks, etc.
