

AQUA-12TG

100 V LINE TRANSFORMER CEILING SPEAKER

DESCRIPTION

Loudspeaker with 100 V line transformer and low impedance.

Based on our extensive experience in the sound sector, FONESTAR has created AQUA.

AQUA is a series of loudspeakers specially designed for public address and ambient sound applications in large outdoor spaces.

Its robust and compact construction, excellent finish and elegant design, allow for a perfect blend into any space.

They are fully prepared for outdoor use as they are equipped with a weatherproofed grille and an adjustable fixing mount, stainless steel screws and water protection (IP-66).

In addition, AQUA has a high-powered 12" woofer and diffuser motor that delivers a rich, defined and distortion-free sound. Provides powerful sound and wide coverage.

Includes all necessary accessories for a quick and easy installation: adjustable fixing mount, screws and steel safety cable.
