## DESCRIPTION

Dynamic desktop microphone with adjustable gooseneck for professional applications

The MICSET-D32J is a unidirectional dynamic microphone designed for public address and communication applications in professional environments. With a desktop design, its 32 cm gooseneck allows for a comfortable and precise fit in conference, presentation or work environments. Its robust construction and high-quality capsule ensure clear and accurate sound capture.

High-quality sound in any environment

**Sound accuracy:** With a frequency response of 100-15,000 Hz and a sensitivity of -55 dB, this microphone picks up speech clearly, minimising unwanted background noise.

**Strong and durable:** Its structure withstands intensive use in demanding environments, with the ability to operate at temperatures from -20 °C to 50 °C and withstand up to 90 % relative humidity.

**Practicality:** It features an ON-OFF/PTT button for easy sound control and a 6.3 mm jack plug for quick connection to sound systems.

Why choose MICSET-D32J?

This microphone is ideal for integrators and installers who need reliable equipment with a dynamic range of 78 dB and a maximum SPL of 110 dB, ensuring a clear and distortion-free transmission. Its 1.5 m cable and compact 93 x 46 x 122 mm design make it perfect for discreet but effective installations.
