DESCRIPTION

MICBASE-P microphone desktop base: versatility and safety in every installation

The MICBASE-P is a desktop base designed for dynamic or condenser microphones, providing 3 to 9 VDC power for internal circuits. This robust, black device is perfect for integration into professional sound systems. With 3-pin male XLR connectors on input and output, it allows balanced signals to be transmitted, ensuring optimum sound quality even over long distances.

Professional solutions for high quality sound systems

High quality connectors: Its balanced XLR connectors ensure stable, interference-free audio transmission, ideal for environments where reliability is crucial.

Compact and robust design: Measuring 93 x 46 x 122 mm and weighing 0.51 kg, it fits easily into any space, offering durability and functionality.

Why choose MICBASE-P?

- Flexibility of installation: It is perfect for use in environments such as press rooms, churches or auditoriums, where a reliable and easy-to-integrate solution is required.
- Safe-locking system: Its locking system secures the microphone in place, preventing accidental disconnection during use.
- Reliability over long distances: Thanks to its balanced output, the MICBASE-P enables clear and precise signal transmission, even in long distance configurations.

TECHNICAL CHARACTERISTICS

CONNECTORS	Input XLR male 3-pin, balanced line Output XLR male 3-pin, balanced line
POWER SUPPLY	Phantom 3 to 52 VDC for powering the internal circuitry of the base
COLOUR	Black
DIMENSIONS	93 x 46 x 122 mm depth
