All sectors

DESCRIPTION

HDMI 2.0 Cable High-definition video and audio connection, supports multiple high-definition formats up to 4K@60Hz. Transmits the signal without loss and with the best quality. Designed with HDMI 2.0 specifications and compatible with all previous versions. Highly reliable connectors ensure a perfect connection and signal transmission. Supports UHD resolution of 4K@60Hz and lower. Compatible with all audio formats. With a signal bandwidth of up to 18 Gbps. Also supports 3D, HDR (High Dynamic Range), Ethernet, and Audio Return Channel (ARC), etc. Provides the best video and audio experience. For connecting HDMI video source to TV or projector. Suitable for home, entertainment, or commercial use. Ideal for places such as home TVs, multimedia equipment, exhibitions, showcases, training rooms, conference rooms, sports centers, bars, restaurants, etc.

TECHNICAL CHARACTERISTICS

CONNECTOR A	Male HDMI
CONNECTOR B	Male HDMI
CHARACTERISTICS	<p>High quality HDMI 2.0 digital A/V connection</p> <p>UHD 4K@60Hz resolution.</p> <p>18 Gbps bandwidth. High transmission speed.</p> <p>Copper (Cu) cable with excellent signal transmission</p> <p>Conductors 30 AWG (19+1 conductors)</p> <p>High precision connectors with highly corrosion resistant gold-plated contacts.</p> <p>Ethernet function</p> <p>ARC audio return channel.</p> <p>Supports 3D, HDR, HDCP 2.2 and compressed audio Dolby True HD, DTS-HD, etc.</p>
CONDUCTORS	<p>Copper (Cu)</p> <p>30 AWG</p>
EXTERNAL DIAMETER	5.5 mm
LENGTH	5 m
