DESCRIPTION

Design by Fonestar products are the result of in-depth research and active listening to our customers, turning their needs into competitive solutions.

SKY-5-DOME ceiling loudspeaker: discretion and performance in any space

The SKY-5-DOME is a ceiling loudspeaker designed to meet the demands of installers and engineering professionals looking for sound quality, durability and versatile design. With robust construction, dust and water protection, and a minimalist profile, this model combines advanced technology with discreet aesthetics, ideal for spaces with specific technical requirements.

Maximum versatility for professional installations

Certified resistance: With IP-65 rating and protection against harsh conditions such as dust and moisture, the SKY-5-DOME is suitable for challenging environments.

Practical and safe design: It includes a removable and paintable aluminium grille, an anti-fall system and safety cable hooks, which make it easy to install even in ceilings with reduced access.

Superior sound quality: It integrates a 5" coaxial polypropylene woofer and 1" swiveling tweeter to ensure a clear and wide frequency response from 100 Hz to 20,000 Hz.

Why choose SKY-5-DOME?

The SKY-5-DOME is designed for applications where quality and robustness are essential:

Long-lasting materials: Made of UV-resistant ABS and corrosion-resistant aluminium grille, guaranteeing a long service life.

High acoustic precision: Its sensitivity of 86 dB and a maximum sound pressure of 99 dB make it ideal for a powerful and defined sound.

Easy connectivity: It has quick-connect terminals that are compatible with cables of different thicknesses, optimising the installation process.

Broad compatibility: Suitable for low impedance systems (8 Ohm) and perfect for ceiling applications with limited space.

The SKY-5-DOME combines technical innovation with design features that make for exceptional installation and acoustic performance in any project.
